Honorable Commissioner:

This is a Petition to Expedite under 37 CFR 1.182, requesting that the Commissioner expedite consideration of a Petition to Replace an IDS in the above listed reexamination. The Petition to Replace was filed on August 31, 2012, and was directed towards an "original" IDS filed on July 18, 2011.

**I. BACKGROUND**

Specifically, the Petition to Replace an IDS requests replacement of Patent Owner's original Information Disclosure Statement (IDS) in the above-identified reexamination, application, or patent. **The original IDS erroneously included documents that are subject to a protective order in International Trade Commission (ITC) Investigation No. 337-TA-726 ("726 Investigation").** Specifically, the original IDS inadvertently included documents that were designated by the parties who produced the documents as confidential business information and subject to the Protective Order in the 726 Investigation.

The documents that are subject to the 726 Investigation's Protective Order should not be available to the public. With the help of the Office of Patent Legal Administration, the documents listed in the IDSs that were designated as confidential by the producing parties<sup>1</sup> have temporarily been hidden from public view until such time that the PTO has an opportunity to render decisions on the petitions to be filed. Thus, an expedited decision is important so that the protected information remains protected. Expedited consideration and grant of the Petition to Replace the earlier filed IDS will make this temporary measure permanent. A copy of the 726 Protective Order is attached to the Petition to Replace an IDS.

This Petition to Expedite is important in order to prohibit the protected information from being accessed through a request for this information from the Patent Office. Moreover, this Petition to Expedite and the associated Petition to Replace an IDS represent Patent Owner's best efforts to mitigate any public disclosure of the protected information via the Patent Office. Patent Owner learned on August 9, 2012 of this inadvertent submission of protected information to the Patent Office.

Thus, it is in the interests of all parties (the PTO, the Patent Owner, the Respondent in the ITC litigation, and other third parties) that the Commissioner expedite consideration of the Petition to Replace an IDS. The cooperation of the PTO in terminating potential access to this protected information is greatly appreciated.

---

<sup>1</sup> At least one of the protected documents has been designated as confidential by and belongs to the Patent Owner.
